PETITION FOR RECLAIMED WATER SERVICE

We, the undersigned, do hereby request extension of the Reclaimed Water System and commit to tying onto the Reclaimed Water System within a minimum period of three (3) months once such service becomes available to our property. We understand that the City of Pinellas Park makes no warranties or guarantees as the length of time that it will take to provide reclaimed water service to our property, and that the City is under no obligation to have the same installed within any particular time frame. We further understand that the provision of reclaimed water service to our property is contingent upon approval by City Council, and that the public right-of-way adjacent to our property may be used to install the necessary reclaimed water service improvements.
