**LAND DEVELOPMENT CODE SECTION 18-1530.4(B)4 REQUIRED FENCING**

1. Every pool shall be enclosed completely by a solid wood, masonry or chain link fence, screened enclosure / cage, or other structure constructed or installed so as to obstruct access thereto by persons other than the owners or occupants of the premises on which said swimming pool is located. **EXCEPTION:** When a property line traverses a body of water, a fence is not required within the land area displaced by the water.
2. The fence, screened enclosure / cage, or other structure obstructing access shall not be less than six (6) feet in height from finished grade, and all gates shall open through such fence, screened enclosure / cage or other structure shall be securely closed and latched at all times.
3. Above-Ground Pool Fence Kits: The fence shall be a minimum of six (6) feet from finished grade of the surrounding yard, and shall contain either a gate that can be secured or a swing up safety ladder that completely obstructs the entrance to the pool.
4. Building permits for pools that require fencing or screened enclosure / cage shall be issued simultaneously. As an alternative, a notarized letter shall be submitted to the Building Development Division certifying that the proposed pool area is completely enclosed by a fence or other enclosure meeting Code requirements.
