

CITY OF PINELLAS PARK – COMMUNITY NEEDS ASSESSMENT SURVEY

In response to COVID-19, the U.S. Department of Housing and Urban Development has allocated \$235,484 to the City of Pinellas Park to prevent, prepare for, and respond to coronavirus. A Community Needs Assessment is a required part of the planning process.

Public responses to this survey will assist Pinellas Park staff to plan projects and programs for low- to moderate-income persons and families who have been negatively impacted by COVID-19. **Note that funding is limited and not all projects can be addressed with CDBG-CV funding.**
